Activities Agreement

To insure the proper atmosphere for interscholastic competition, the participant and his/her parents or guardians must understand and cooperate in helping establish that atmosphere by adhering to all school rules and regulations. When a violation of school rules occurs proper steps will be taken. A participant may be suspended from participating in interscholastic activities or from a team for violating any of the following standards: (1) falsification of physician's signature, parent or guardian's signature, any information pertaining to school enrollment, school records, or interscholastic activity forms; (2) use of, possession of, or distribution of alcohol or tobacco; misuse of non-prescription drugs, or of controlled substances; (3) theft or destruction to property of any school or individual; (4) repeated acts of unsportsmanlike conduct; (5) failure to follow rules as set for individual activities by coaches.

A student must have his/her parent's or guardian's signed permission to participate. All athletic participation requires a physical examination with the doctor's permission to participate. The participant is required to abide by the rules and regulations of the State Board of Education, the Douglas County Board of Education, and the Georgia High School Association.

Informed Consent

We realize that such activities involve the potential for injury to our son or daughter which is inherent in all activities. We acknowledge that even with the best coaching, use of the most advanced protective equipment, and strict observance of rules, injuries to our son/daughter are still a possibility. We recognize that on rare occasions these injuries to our son/daughter can be so severe as to result in total disability, paralysis or even death.

Drug Testing Consent (High School Only)

We understand that submission to testing for the presence of drugs and alcohol is a condition of participation in privileged activities in the Douglas County School System. We further understand that refusal to take the test, failure to report for the test, or if the test establishes a violation of the drug testing policy, our son/daughter will be subject to consequences as set forth by the drug testing policy (JCDAB-R (1)).

General Release

It is anticipated that my son/daughter, while a participant in interscholastic activities in the Douglas County School System, will travel to many activities off campus. Transportation for my child to these off campus activities may be school buses, private vehicles, or alternate transportation operated by employees or agents of the School System. In consideration of their performing this valuable service for me and my child, I hereby release and discharge any and all claims and causes of action of any kind or nature which may arise out of my child's travel while at school both for myself and my minor child. It is the express intent of this release to forever hold the Douglas County School System, its agents and employees, harmless for any injuries which may occur to my child as a result of travel while he or she is in the custody of the School System.

Insurance Waiver

I fully understand that the Douglas County School System does not provide any insurance and it is my responsibility to provide insurance coverage for my son/daughter. The Douglas County School System will not assume liability for injuries incurred by my son/daughter during participation in or practice of any interscholastic activity.

A parent/guardian may elect to enroll the participant in a supplemental school insurance program which is authorized by the Douglas County School System. If you choose to purchase coverage through this plan, contact the school principal or head coach for additional information.

Authorization:

In case of an emergency or accident during any school activity involving my child, which in the opinion of school authorities present requires immediate medical or surgical attention, I authorize the school to take such emergency actions as may be deemed necessary, including the transportation of the student to a hospital or medical center and authorizing medical treatment. I hereby grant permission, also to said physician to treat said condition unless I am present and request otherwise. I assume the responsibility for any medical expenses incurred during this emergency. The coach, school, or the Douglas County School System will not be held responsible for any medical expenses.

Permission to Participate:

I have carefully read and understand each of the above section and will comply with these policies or statement. Permission is granted to my son/daughter to practice and complete in interscholastic activities.

NOTE: Parent/guardian must report any criminal charge or arrest of the student and related details to school athletic director or coach within 1 week of the charge or arrest, even during school breaks. Failure to do so may result in the student being suspended from athletic participation for (1) calendar year.

Consent to Participation – Student Drug Testing

I understand that submission to testing for the presence of drugs and alcohol is a condition of participation in privileged activities in the Douglas County School System. I further understand that if I refuse to take the test, fail to report for the test, or if the test establishes a violation of the drug testing policy, I will be subject to consequences as set forth by the drug testing policy.

By signing and dating this form, I consent to take an initial drug test, if required, and be randomly tested throughout the school year. The initial drug test, when required, is to be completed prior to the start of the privileged activity. The random testing will be done monthly throughout the school year. The selection process for random drug testing will be performed by the contracting body with the participating students being notified on the day they are to report for testing.

I hereby consent to the administration of drug tests and to the conditions listed in this consent and the accompanying general prohibitions and procedures as outlined in Policy JCDAB-R/JCDAC-R, JCDAB-R(1) of the Douglas County School System Policy Manual.

I understand that unless my parent or guardian contacts the Drug Testing Administrator after the first year, and makes a formal request to remove my name and student ID number from the testing pool, my name will automatically be re-entered into the testing pool each year.

Georgia High School Association Student/Parent Concussion Awareness Form

SCHOOL: Chapel Hill High School

DANGERS OF CONCUSSION

Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor "ding" to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death.

Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home.

COMMON SIGNS AND SYMPTOMS OF CONCUSSION

- Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
- Nausea or vomiting
- Blurred vision, sensitivity to light and sounds
- Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments
- Unexplained changes in behavior and personality
- Loss of consciousness (NOTE: This does not occur in all concussion episodes.)

BY-LAW 2.68: GHSA CONCUSSION POLICY: In accordance with Georgia law and national playing rules published by the National Federation of State High School Associations, any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include licensed physician (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physician assistant, or certified athletic trainer who has received training in concussion evaluation and management.)

a) No athlete is allowed to return to a game or a practice on the same day that a concussion (a) has been diagnosed, OR (b) cannot be ruled out.

b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resuming participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance.

By signing this concussion form, I give _____ High School permission to transfer this concussion form to the other sports that my child may play. I am aware of the dangers of concussion and this signed concussion form will represent myself and my child during the 2015-2016 school year. This form will be stored with the athletic physical form and other accompanying forms required by the School System.

I HAVE READ THIS FORM AND I UNDERSTAND THE FACTS PRESENTED IN IT.
